Our Program

We all know there are a countless number of impoverished children throughout the world, which is why BL Charity was founded. We want to reach out, and directly help as many children as possible, by providing the basic necessities of life. Millions of children go to bed starving every night, and live in conditions that are threatening to their health. We want to change this, and brighten the lives of these children, giving them hope for the future.

Operated by a small team of volunteers throughout Canada and Eastern Europe, BL Charity has dedicated itself to directly help impoverished children and families. Based in Eastern Europe, BL Charity has direct contacts with social services, and has sought out children and families in dire need of help. These children currently have little or no hope for the future, and are in desperate need of our help. To learn more about the children and families we are helping, please see our Kids We're Helping section.

We have developed a monthly donations program allowing you to take part in this great organization, and directly help these children in need. All funds raised through the monthly program will be donated directly to the children and their families. Unlike other charitable organizations, we don't deduct any administration fees from the donations received. For a simple \$25/month, you can help make the dreams of many children come true, and give them hope for the future. If you do not wish to commit to monthly donations, please visit our one-time donations page, for information on how to make anonymous one-time donations.

We have dedicated ourselves to being a true charity by keeping you, our members, informed with up to date information on all children and families we have helped. Instead of only seeing another monthly bill, you will constantly be updated with information directly from the children and families themselves. Full stories, photos, hand written letters from the children themselves, receipts, plus more are available on our Kids We're Helping section.

By creating a large community, we can greatly influence the lives of thousands, if not millions of children. Once our membership has grown large enough, we will begin searching for orphanages, and organizations to help. With your help, we can uplift the standard of living for entire orphanages, and schools.

In Eastern Europe, a simple \$25 can go much further than in most other parts of the world. Instead of being able to spend the night at the movies, you could provide a hungry child with warm meals for two weeks. For \$550, a family with three children can live in a decent two bedroom apartment, pay all of their bills, and always have food on the table. With the cost of living so low, there are still thousands of children and families living on the streets, going to sleep starving every night, and desperately need our help.

Please make the decision to join our monthly donations program, and help many children in dire need of help. For a small donation of \$15, \$25, \$50 or \$100/month you can help bring brightness to many children's lives throughout Eastern Europe, who would otherwise be left in darkness. We also greatly appreciate one-time donations if you do not want to join our monthly program.
